Asset Recovery

eRevival work with many clients to retain the residual value of their excess IT asset by selling it on consignment bases. Consignment Services enable us to effectively research our worldwide database of customers for opportunities to return the most revenue to you.

Our Client's data is of the utmost importance! We perform tag removal and data deletion using DOD standards before we resale any of your equipment.

eRevival

A Leader in Electronics, Computer Recycling
& Hard Drive Shredding (ON-SITE or OFF-SITE)

What is e-Waste?

e-Waste is a term that describes electronics products nearing the end of their useful life. They may include but are not limited to computers, TV's, Audio Equipment, Routers, Monitors, Printers, Phones and Fax Machines. Many of these products can be reused, refurbished, or recycled.

As the technology doubles every 3 years, electronics discards is one of the fastest growing segments of our nation's waste stream. While these end of life electronics are safe to use they contain toxic substances, such as lead, Mercury etc. These toxic substances are known to be harmful to our environment and public health.

- According to EPA, in 2005 we generated about 2.6million tons of ewaste in the US, of which only 12.6% was recycled
- 133,000 PC's discarded by US homes & businesses each day.

eRevival LLC

Due to the growing e-waste awareness & increased demand in electronics recycling, eRevival LLC has quickly evolved into one of the leading electronics & computer recycling companies in the US. We are also very proud to serve many satisfied Organizations thought the nation.

Why eRevival?

- **Zero** - Landfill, **Zero** - Export Policy
- New Jersey Department for Environmental Protection (NJDEP) Registered
- Environment Protection Agency (EPA) Registered
- International Association of Electronics Recyclers (IAER) Member

e-Waste Recycling

eRevival, a EPA & NJDEP Registered Recycler offer a full spectrum of disposal of all kinds of Electronics item.

Tag removal and data destruction using US Department of Defense (DOD) standards on all Recycling shipment.

As a NJ DEP & EPA Registered Recycler we issue Certificate of Recycling and Serial Number Log.

Logistics

eRevival offer Nationwide no Hassle Pick Up Service to serve all your branches. Our Logistics unit is professionally trained and carries a general Liability Insurance to help protect your asset.

Media Shredding

With the growing concern of identify theft, eRevival is happy to serve its clients with physical destruction hard drives and tapes. Unlike data deletion which is prone to software bugs & human error physical destruction is the only 100% absolute & secure destruction.

HIPAA
COMPLIANT

FACTA
COMPLIANT

Our destruction process meets all applicable privacy laws and guidelines such as HIPPA or FACTA.

We issue Certificate of Destruction, Serial Number Log and Video Presentation for all hard drives and tapes we destroy. This also serves as a proof of job completed in accordance with privacy guidelines.

Nationwide service to meet all your organization needs.

Start your ON-SITE or OFF-SITE Hard Drive Shredding before you get a Victim of Identity theft.
